Moreover selling your books assiduously online, there are a number of different methods that can show you how to sell more books.

One is to present something away without cost along with your book, comparable to a precious bonus item. Or bundle several ebooks below one worth, which lowers the worth for every book if they have been bought separately.

An effective technique for figuring out a price is to send out a survey to your current customers. If these prospects have already purchased an e-book from you, ask for their opinion when it comes to price. Do that by creating a gross sales page for the new guide, however don't include a value on

that page. As a substitute, add a lot of hyperlinks to survey questions that ask pointed questions to help you in assigning a value to your ebook.

One other strategy is to test out costs by creating a number of duplicate gross sales pages with totally different costs on each page. Make certain your gross sales copy is exactly the same on every web page, and contains your promoting-deal with sentence. Then work out for every page the conversion ratio between guests to your site and sales of your book. This may inform you what your optimum value is.

Ultimately, if you've written a ebook that solves a problem or presents a new technique, your guide will usher in both site visitors and profits. So you'll want to write that promoting-handle sentence that sums up what downside your ebook solves and what the benefits of your 1841 book will be to the purchasers who buy it.
