Besides promoting your books assiduously online, there are several other methods that may show you how to promote extra books.

One is to present one thing away free of charge with your guide, reminiscent of a worthwhile bonus item. Or bundle several ebooks under one price, which lowers the worth for each ebook in the event that they have been sold separately.

An efficient technique for determining a worth is to send out a survey to your current customers. If these customers have already bought an ebook from you, ask for their opinion by way of price. Do this by creating a sales page for the new e-book, but don't include a value on that page. Instead, add a number of hyperlinks to survey questions that ask pointed questions to help you in assigning a price to your ebook.

One other technique is to check out prices by making a number of duplicate gross sales pages with totally different costs on each page. Make sure your sales copy is precisely the identical on each

web page, and includes your promoting-handle sentence. Then determine for each web page the conversion ratio between guests to your website and gross sales of your book. This will inform you what your optimum price is.

In the end, when you've written a e-book that solves a drawback or presents a new method, your e book will herald both traffic and profits. So be sure to write that promoting-deal with sentence that sums up what downside your e book solves and what the advantages of your 2118 book will be to the customers who buy it. And then watch your market come to you!
