Besides selling your books assiduously on-line, there are several other strategies that may show you how to sell more books.

One is to offer one thing away free of charge with your book, corresponding to a priceless bonus item. Or bundle a number of ebooks underneath one price, which lowers the value for each ebook in the event that they have been sold separately.

An efficient approach for figuring out a value is to send out a survey to your current customers. If these prospects have already bought an e book from you, ask for his or her opinion by way of price.

Do this by making a sales page for the new guide, but do not include a value on that page. Instead, add a number of links to survey questions that ask pointed questions to help you in assigning a price to your ebook.

Another technique is to test out prices by making a number of duplicate sales pages with completely different prices on every page. Make sure that your sales copy is strictly the identical on every page, and includes your selling-handle sentence. Then work out for every page the conversion ratio between guests to your site and sales of your book. This will tell you what your optimum worth is.

In the end, when you've written a book that solves a problem or presents a brand new approach, your ebook will bring in both site visitors and profits. So make sure you write that promoting-handle sentence that sums up what problem your e-book solves and what the advantages of your 223 book might be to the customers who buy it.
