In addition to selling your books assiduously on-line, there are several other methods that can show you how to sell extra books.

One is to offer one thing away for free with your e-book, corresponding to a worthwhile bonus item. Or bundle a number of ebooks under one price, which lowers the worth for each ebook in the event that they have been bought separately.

An efficient technique for determining a price is to ship out a survey to your current customers. If these prospects have already bought an book from you, ask for his or her opinion in terms of price. Do that by making a gross sales web page for the brand new e book, but do not include a price on that page. As an alternative, add a lot of links to survey questions that ask pointed questions to assist you in assigning a price to your ebook.

Another strategy is to test out costs by making a number of duplicate sales pages with different prices on each page. Make certain your sales copy is exactly the identical on each web page, and

includes your selling-deal with sentence. Then figure out for every page the conversion ratio between visitors to your web site and sales of your book. This may tell you what your optimum price is.

Ultimately, should you've written a ebook that solves a problem or presents a new approach, your book will bring in each traffic and profits. So you'll want to write that promoting-deal with sentence that sums up what drawback your e book solves and what the benefits of your 2313 e book will probably be to the shoppers who purchase it.
