One other technique is to test out prices by creating a number of duplicate sales pages with completely different costs on each page. Make sure your gross sales copy is strictly the similar on

each page, and contains your selling-handle sentence. Then work out for every web page the conversion ratio between guests to your website and sales of your book. This can tell you what your optimum price is.

Finally, if you happen to've written a e-book that solves a drawback or presents a brand new approach, your e book will herald each site visitors and profits.
