An efficient approach for figuring out a worth is to ship out a survey to your current customers. If these clients have already purchased an e book from you, ask for their opinion when it comes to price. Do this by creating a gross sales web page for the new book, but don't embrace a worth on that page. As an alternative, add a lot of hyperlinks to survey questions that ask pointed questions to help you in assigning a worth to your ebook.

One other technique is to test out costs by making a variety of duplicate sales pages with different prices on every page. Ensure that your gross sales copy is exactly the identical on each page, and

includes your selling-handle sentence. Then determine for every page the conversion ratio between visitors to your site and sales of your book. This can let you know what your optimum price is.

Finally, when you've written a book that solves a problem or presents a brand new technique, your guide will bring in both traffic and profits. So be sure to write that selling-deal with sentence that sums up what problem your book solves and what the benefits of your 792 e-book can be to the purchasers who buy it.
